

Remuneration of employees whose benefits exceed £100,000

The Academies Financial Handbook 2022 requires that trusts must publish on their website the number of employees whose benefits exceed £100,000, in £10,000 bandings.

The Schools' financial statements for 2021/22 show that one employee received total benefits of between £130,000 and £140,000. No other employees received benefits above £100,000.
